Striking an affordable balance between clinical requirements and economic demands, ENDOPATH BASX Trocars offer only the essential features needed for general procedures while a limited number of product codes facilitates efficient inventory management.

**Recessed Stopcock Valve**
- Mitigates inadvertent opening/closing of valve during surgery

**Bladeless Obturator**
- Separates, rather than cuts, along tissue fibers, pushing tissue and vessels away
- Reduced risk of abdominal wall vasculature injuries with bleeding complications.¹

**Durable Universal Seal**
- No reducer caps needed
- Accommodates a wide range of instrument sizes (4.7mm-12.9mm)

**Integrated Stability Thread Design**
- Maximizes abdominal wall retention to minimize trocar slipouts

**Low Profile Housing**
- Enables further instrument reach

**More Options — More Value**

At Ethicon, we recognize that not all ports require the same level of trocar functionality. We offer the flexibility to choose the trocar for the right level of performance, when and where it’s needed.
- ENDOPATH XCEL Trocars with OPTIVIEW® Technology for camera ports
- ENDOPATH XCEL Trocars for working ports
- ENDOPATH BASX Trocars for retraction ports

¹ In a systematic review and meta-analysis of RCTs that compared the clinical use of blunt tip and bladed trocars, significant injury of the abdominal wall vasculature with bleeding complication was reported in 13 of 417 patients (3%) of the blunt trocar group and in 38 of 431 patients (9%) of the bladed trocar group (p=0.020). Antoniou S, Antoniou G, Koch O, et al. Blunt vs Bladed Trocars in Laparoscopic Surgery: A Systematic Review and Meta-Analysis of Randomized Trials. Surg Endosc. 2013; 27(1): 2312-2320.

BASX® Trocars are available only with a nonoptical bladeless obturator
Instruments per Sales Unit: 6

How to Order

All purchase orders are made to Johnson & Johnson Health Care Systems, Inc. (JJHCS) or your authorized distributor.

Electronic Ordering Options
(Note: Placing orders electronically avoids minimum order fees for your hospital.)

Johnson & Johnson Gateway: www.jnjgateway.com/commerce
For questions about your order, visit the website or call 1-866-JNJ-GATE (565-4283).

For questions about your order, visit the website or call 1-800-YOUR-GHX (968-7449).

Electronic Data Interchange (EDI): JJHCS EDI Help Line: 1-800-262-2888

Nonelectronic/Manual Ordering Options
Call JJHCS at 1-800-255-2500 between 8:30 a.m. and 9:00 p.m. Eastern Standard Time or fax your order to 1-732-562-2212.

Visit ethicon.com for more information about our ENDOPATH BASX Trocars.

Customer Support

For product use assistance, clinical guidelines, service and repair, emergency assistance, copy of a 510(k) clearance letter or complaints, please contact our Customer Support Center at customersupport@eesus.jnj.com or by calling 1-877-ETHICON (384-4266). Our Support Center is staffed 24 hours a day, 7 days a week by qualified nurses to answer your product-related questions.

Visit ethicon.com for more information about our ENDOPATH BASX Trocars.
